***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Sumitomo Electric Industries, Ltd. (JP 8-165582 A).

Patent from Sumitomo Electric Industries, Ltd describes a component comprising: a chrome plating layer on a base material of Cu, or Cu alloy (claimed a metal layer electrochemically less noble than the matrix metal material) and gold plating layer on the chrome plating layer (claimed a second metal film layer electrochemically more noble than the matrix metal material) (claim 1).

In another embodiment, he teaches a nickel plating layer between the chrome plating layer and the base material (claim 2). This nickel plating layer would read on claim a metal film layer electrochemically less noble than the matrix metal material (Cu or Cu alloy).

***Election/Restrictions***

3. Applicant's election without traverse of claims 1 and 2 in the reply filed on 11/14/08 is acknowledged.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy-Vu N. Deo whose telephone number is 571-272-1462. The examiner can normally be reached on Mon-Fri.
